St. Mary's Health System
A Member of Covenant Health
Our Heritage

In 1888, the Sisters of Charity of Saint-Hyacinthe established a healing ministry to meet the needs of this community. In the spirit of the Sisters and their foundress, St. Marguerite d’Youville, St. Mary’s Health System will continue its unwavering commitment to provide holistic care, offered with respect and compassion, for all in our community.

“We shall continue to love and to serve.”
-St. Marguerite d’Youville

The Mission of St. Mary’s Health System

We are a Catholic health ministry, providing healing and care for the whole person, in service to all in our communities.

Our Judeo-Christian tradition compels us to promote Gospel values in all of our endeavors. We commit to honor these core values:

Compassion: We show respect, caring and sensitivity towards all, honoring the dignity of each person, especially the poor, vulnerable and suffering.

Integrity: We promote justice and ethical behavior, and responsibly steward our human, financial and environmental resources.

Collaboration: We work in partnership, dialogue and shared purpose to create healthy communities.

Excellence: We deliver all services with the highest level of quality, while seeking creative innovation.
Dear Friend:

Like St. Marguerite d’Youville and the Sisters of Charity of St. Hyacinthe, who founded our healthcare ministry, St. Mary’s and Covenant Health are committed to providing healing and care for all, with respect and compassion. In that spirit, we focused on two major initiatives in 2017.

The first was to enhance our facility to improve the experience of our patients in our behavioral health, oncology, rheumatology and neurology programs through our capital campaign, Making an Impact with Care and Compassion. We are thrilled to announce at the end of 2017, we had raised more than $5 million toward a minimum total cash and pledges goal of $6 million. In addition, during 2017 we received a million-dollar commitment and several commitments of $100,000 or more. Thanks to the generosity of you and others, we have opened the new child and adolescent behavioral unit, which is the first major milestone in our three-phase campaign.

Secondly, we announced a $10 million gift made by our friend and visionary, Albert Lepage, to help us improve the experience we provide to our patients and members of their families. It will undoubtedly have a lasting impact at St. Mary’s and on the care we provide. Thank you for making 2017 an amazing year for our patients.

A robust community requires a robust health system. Since 1888, we have been working to strengthen and transform health care in our community. Thankfully we have been blessed by strong financial support from you and others who believe in our mission. With your continued partnership, we will endeavor to provide support, foster collaboration and lead the way to a better, healthier Androscoggin County and beyond.

Sincerely,

Mark W. Anthoine, Sr.
Chairman of the Board
St. Mary’s Health System
Supporting St. Mary’s and Catholic Health Initiatives

Meet Sharon and Don Fournier
Don Fournier is much more than a St. Mary’s Health System board member and president of St. Dominic Academy. He is also an educator who has a passion to ensure our children and youth are cared for and nurtured.

“St. Mary’s truly embodies quality care that supports healing and wellness for the mind, body, and soul. Having had parents, grandparents, and other family members who call St. Mary’s their home for health care confirms the feeling this is a health family worth supporting. When my wife and I were asked to consider a gift to the St. Mary’s capital campaign, we did not hesitate to say yes.

St. Mary’s has consistently served as a leader in Maine for behavioral health, and this project will only reaffirm that commitment to care. It is a great honor to be a part of a health network that includes community health programs at a variety of levels to service the needs of our community in many ways. Healing that takes place in a caring, loving, and faith-filled environment is not only holistic; it is a basic component to our lives here on earth. St. Mary’s provides all of that and more!”

“It is a great honor to be a part of a health network that includes community health programs at a variety of levels to service the needs of our community in many ways.”
Supporting the Grateful Patient Program and the Capital Campaign

Meet Cindy and Jim Place
A Diagnostic Radiologist, Jim Place has made it his mission to support his local communities: “Cindy and I are from small towns in Central Maine. We have both enjoyed long, wonderful careers in health care. When we needed to select a post-acute care facility for my mom, we knew d’Youville Pavilion was the right choice for her. We were surrounded by compassionate care team members that embodied the St. Mary’s mission during every shift and that committed to quality care. My mom was treated with dignity and professionalism each day. Because of this, our family created a fund for continuing education for staff members.”

Cindy and Jim believe St. Mary’s is a unique gift within the community. As regular supporters of the St. Mary’s Annual Fund as well as the Nutrition Center, they are also active participants in community events such as Commit to Get Fit Challenge and the St. Mary’s Nutrition Center Chefs Soirée. Jim serves as a leadership team member with the St. Mary’s capital campaign, where the focus has been to help ensure the completion of the updated behavioral health units as well as a new infusion center.

“We were surrounded by a compassionate care team that embodied the St. Mary’s mission during every shift.”
Supporting the Capital Campaign

Meet Erin and Ben Hayes

“I have multiple friends and family members who have experienced cancer. Knowing that the capital campaign is focusing on providing an even better facility for their care brings a sense of comfort.”
As St. Mary’s Risk Manager and Compliance Officer, Erin Hayes knows how many of our patients are facing challenging situations. She and Ben have chosen to support the capital campaign for a number of reasons. “I have multiple friends and family members who have experienced cancer. Knowing that the capital campaign is focusing on providing an even better facility for their care brings a sense of comfort.

Second, and this one is tough to talk about, we’re giving to the campaign for our daughter. A few weeks before her 10th birthday, we admitted her to the adolescent behavioral unit for two nights. It was the most difficult decision my husband and I have ever had to make and yet it was the right one.”

Erin applauded the St. Mary’s behavioral health care team: “The staff was absolutely incredible, and they treated her like family. The care she received gave us all the boost we needed to treat her depression and bring her back to her usual, happy self. Depression in kids is something most people don’t want to discuss because it’s hard to understand and, at times, believe. However, it’s time we started talking about it. Seeing the new unit brought tears to my eyes knowing that kids, like my daughter, will be in a location that finally matches the care they are receiving. Those patients receiving mental health treatment are usually at their most vulnerable; they need, and deserve, a safe and comforting environment. This campaign will help ensure they receive it. I give for the patients who will need the treatment. I give for my daughter who received the treatment she needed.”
MAKING AN ENDOWMENT

Endowments are donated funds that are invested to grow over time. The annual distribution from endowment income is used to support patients, capital and equipment needs, continued education for staff members, and other purposes specified by the donor. Endowments are important because they produce a permanent and reliable income flow that benefits St. Mary’s, its patients and its employees.

We are grateful to those who have established the following endowments:

The Androscoggin Bank Fund
The Micha D. Barowsky Endowment Fund
The Geraldine Beeaker Cancer Fund
The Dr. Bertrand A. Beliveau Heart Fund
The Cecile Coulombe Pediatric Behavioral Health Endowment Fund
The Ralph and Melinda Harder Endowment Fund
The Healey Trust Day Care Fund
The Albert Lepage Center for Patient Experience Fund
The F.R. Lepage Fund
The Geraldine G. Lynn Fund
The Medical Center Fund
The Nursing Education Fund
The Seltzer & Rydholm Fund

St. Mary’s is committed to improving the health of our community through employee leadership, strategic partnerships, programs to address identified community health needs and community and health care professionals’ education. These efforts are examples of ways we use our “expert minds and caring hands” to turn hurt into hope.

*Community Benefit figures are unaudited at the time of printing of the St. Mary's Health System Foundation annual report.*
Over the past several years, health care organizations have begun noticing that what was once “enough” - providing exemplary medical care - is no longer “enough.” From a patient’s perspective, excellence in medical care is expected. What more and more patients desire is a personalized experience, one that makes them feel valued and comfortable, in a welcoming setting.

Albert Lepage, former Board Chair of Lepage Bakeries in Lewiston, has been a longtime friend and supporter of St. Mary’s. His family has deep roots here, and he cares genuinely about this health system and its mission. His foundation, the Albert Lepage Foundation, has given a gift of $10 million to establish the Albert Lepage Center for Patient Experience. “The Androscoggin County community has greatly benefited from St. Mary’s expertise and compassion. I’m confident the new center will position St. Mary’s to lead the industry in ensuring a patient’s experience is exceptional.”

Improving the experience for patients and their families can take many forms – from something as simple as providing free coffee in our waiting areas to something more high tech, like a smart phone app that provides wayfinding directions throughout the hospital.

To that end, a Patient Experience Advisory Council has been established, comprised of local business leaders who are known for giving excellent customer service. Their input is helping St. Mary’s consider how a similar level of service may translate into the health care arena.
Additionally, employees and departments are being given an opportunity to compete for funds through a competitive grants process, as they consider new and innovative programming and service ideas that will improve the patient experience and improve patient outcomes. “We are looking for WOW experiences for our patients,” said Dr. Chris Bowe, Chief Medical Officer.

Future plans call for employing a patient experience officer who will be responsible for patient satisfaction and service excellence initiatives as well as engaging with patients and their families, and the providers and staff who care for them.

Extraordinary care depends on making human connections – being attentive to the needs of patients, creating an atmosphere of trust and respect, listening and responding to concerns, and providing a clear explanation of the care plan and delivery. With funds from our generous friend and visionary, Albert Lepage, St. Mary’s moves one step closer to creating exceptional outcomes that matter to patients and their families.

---

**PATIENT EXPERIENCE:**

The sum of all *interactions*, shaped by an organization’s *culture*, that influence patient *perceptions* across the *continuum* of care.

About Covenant Health

Covenant Health is an innovative, Catholic regional health care system and a leader in values-based, not-for-profit health and elder care. Covenant’s family of facilities consists of hospitals, skilled nursing and rehabilitation centers, assisted living residences and community-based care organizations throughout New England. We’re fully committed to offering a continuum of high-quality, compassionate care to the individuals and communities we serve. Please visit www.covenanthealth.net to learn more about us or to review a list of associated locations.
